Find Out Your English Level

(Optional but Recommended)

The CEFR is a widely used system for measuring language ability, from beginner (A1) to near-native (C2). We use this to help you find the right course. If you already know your CEFR level (A1–C2), you can skip to “Find a Course for Your Level”. If not, you have two ways to find out:

Option 1: Take a Self-Assessment Quiz

Inside your first course, you'll find links to two free quizzes:

- A1 to B1+ Quiz (Lower Level English Assessment)
- B1+ to C2 Quiz (Upper Level English Assessment)

These quizzes are quick and based on the official CEFR scale (Common European Framework of Reference for Languages). At the end, you'll see your estimated level.

Option 2: Schedule a Level Check Interview

If you're not sure after the quiz or want personal advice:

- You can schedule a 15-minute interview with a native English speaker.
- This is useful if:
 - You want to speak with someone directly.
 - You think you're between levels.
 - You prefer real feedback before choosing a course.

Just click the **Level Check Appointment** link in the course to schedule your session and choose a time, enter your info, and submit the form

Option 3: Use Our AI Chatbot

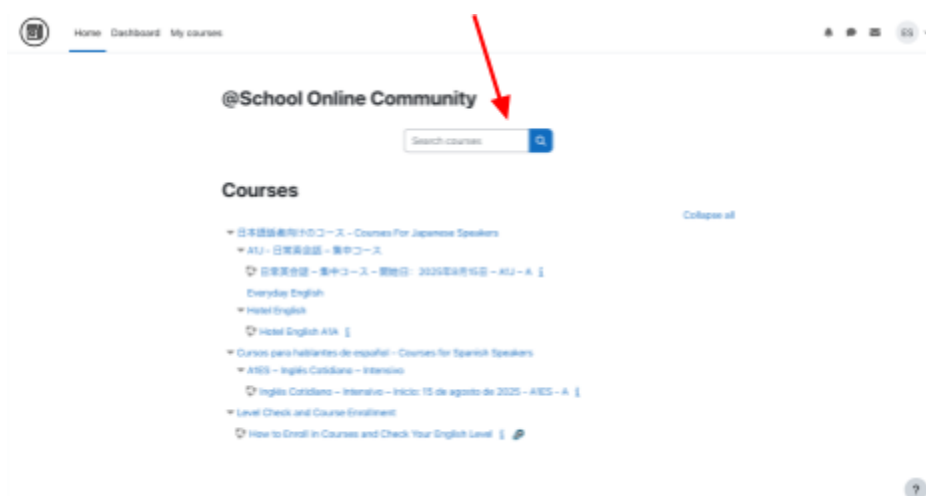

Just use the link in the course entitled "AI Chatbot Level Check" and follow the instructions. The chatbot will ask you a series of questions and will then tell you your level.

Find a Course for Your Level

Once you know your level:

1. Go to the top of the screen and click "Home."

2. Use the Course Search tool.

3. Type your level and language code like this:

- J for Japanese speakers (e.g., **A1J** or **B2J**)
- ES for Spanish speakers (e.g., **A1ES** or **C1ES**)

You'll see courses designed for learners just like you. Click on a course title to view the full details.
